Proposal language for general fixed price subaward:

The subaward to [name of subrecipient] documented in this proposal meets the criteria described in 2 CFR 200.201(b) and [name of your institution] is therefore requesting prior agency approval of issuing this as a Fixed Price Subaward. [Institution] will consider this subaward approved if an award is made and no contrary guidance from the agency is included in the award notice.

Proposal language for clinical sites:

Pursuant to 2 CFR 200.332 and 45 CFR 75.201, we intend to enter into clinical trial subawards in a fixed price manner. Subaward payments will be made when the subrecipient meets the enrollment milestone as outlined in the subaward as required by the regulations. As we have not selected all subrecipients who will be enrolling in the trial, we are seeking universal approval for any clinical trial subaward we enter into during the duration of the project in order to expedite clinical site activation, provided that such subawards based on fixed amounts (as defined in 45 CFR Part 75.2) satisfy the conditions for such subawards cited in the NIH GPS Section 8.1.2.11 (1) through (5) [omit if not NIH]. [Institution] will consider this universal request approved if an award is made and no contrary guidance from the agency is included in the award notice.

May also include pricing information as applicable-
Example: The pricing structure is as follows: $X [enter cost] for Y # of “patients” [enter quantity].
